EDUCATION

Odisha University Of Technology and Research

Bachelor of Technology in Mechanical Engineering

Bhubaneswar, Odisha

2022 – 2026

PROJECTS

TooManyIssues | [Live Link](#)

Jun 2026 – Present

An Open-source platform that aggregates GitHub issues and provides AI-generated summaries.

- **Tech Stack:** Java, Spring Boot, React, MongoDB, PostgreSQL, Redis, Docker, Nginx, AWS EC2, GitHub GraphQL
- **Data Ingestion & Rate Limiting:** Architected a multi-threaded polling engine using the GitHub GraphQL API; implemented a custom "Thermostat" algorithm to dynamically adjust frequencies, reducing API token consumption by 80%.
- **Polyglot Persistence & Backfill:** Designed a dual-database system (PostgreSQL/MongoDB) with Compound Text Indexes. Engineered a self-healing historical backfill pipeline utilizing `CompletableFuture` to reliably sync 14,000+ repositories.
- **AI Integration & Concurrency:** Integrated Google Gemini 3.1 Flash Lite for Just-In-Time (JIT) issue summarization; implemented Redis atomic locks (`SETNX`) to prevent race conditions and mitigate concurrent API quota exhaustion.
- **Infrastructure & Security:** Deployed the containerized application on AWS EC2 using Docker Compose and Nginx; isolated datastores on a private bridge network and secured the REST API utilizing JWT stateless authentication.

EXPERIENCE

Vocational Training Programme

HAL (Hindustan Aeronautics Limited)

June 2025 – July 2025

Koraput Division

- Studied end-to-end manufacturing and assembly processes of jet engines.
- Authored a comprehensive report on the Air System in Aero Engines, analyzing internal airflow mechanisms.
- Analyzed highly optimized system designs, focusing on fault tolerance and precision engineering.

TECHNICAL SKILLS

Languages: C/C++, Java, Python

Frameworks: Spring Boot, Spring Security, Spring Data JPA/Hibernate, React

Developer Tools: Git, GitHub, Docker, Nginx, Linux

Databases: SQL (PostgreSQL, SQLite), NoSQL (MongoDB, Redis)

Cloud/APIs: AWS EC2, Google Gemini API, GitHub GraphQL API

Familiar With / Exploring: Message Brokers (Apache Kafka, RabbitMQ), Event-Driven Architecture

Competition Profile: Rank 61 in Kaggle competition, LeetCode (Max Rating: 1528), Codeforces (Max Rating: 1293, Pupil), CodeChef (Max Rating: 1676, 3 Star)
